Japan's comments on the draft general technical guidelines on ESM of wastes  
consisting of, containing or contaminated with POPs (May 2004 Draft)

In Table 1, for the line "Incinerators (large scale fixed)", X's are currently placed only in the columns of "Industrial Areas". Japan considers that the marks should also be placed in the columns of "Industrially Remote Areas", since paragraph 144 states that this technology is recommended for all areas.
